Anti-hairloss

Shampoo & Lotion

No. 1
in hair & scalp
recovery

Hairwonder, the secret to healthy hair!

We love naturally healthy, shiny & strong hair at Hairwonder. We've been passionate about sustainably developing the most natural hair care products since 1985. It goes without saying we do this with the most innovative extracts and certified organic ingredients. Hairwonder, a breath of fresh air for your hair!

Perfect combination

Hairwonder Anti-hairloss Shampoo and Lotion will strengthen your hair. We've added a unique combination of Phytokeratine and Provitamin B5 to both products, in addition to the certified organic ingredients. Scientific research has shown that Phytokeratine and Provitamin B5 serve to strengthen and moisturise your hair and give it a superior shine. Use Hairwonder Anti-hairloss Shampoo in combination with the Anti-hairloss Lotion to achieve the best results. It's also important to follow a healthy diet (proteins, vitamins & minerals) and lifestyle, in order to prevent hair loss and maintain healthy hair.

Anti-hairloss Shampoo

The Anti-hairloss Shampoo cleanses mildly, helps to stimulate hair growth and reduces hair loss. It strengthens hair, improves its condition, creates volume and texture. It contains essential minerals, rock crystals, red ginseng & biotin.

recovery

Sulphate-free formula

Sulphates are used in many products. Mainly because they're cheap raw materials. Sulphates have a strong cleansing effect and result in a great deal of foam. However, the fact it's such a powerful cleaner means it can also cause the (scalp) skin to dry out faster and subsequently irritate the skin. That's why we've opted to replace the sulphates with plant-based ingredients with a milder cleansing effect for the Anti-hair-loss Shampoo. This results in mild cleansing of the scalp and hair, allowing the scalp to reach a healthy balance and is therefore ultimately suitable for daily use.

Microplastic-free

Microplastics are small plastic particles which are problematic because they're not biodegradable and therefore end up in the ocean. This subsequently causes harm to marine life and ecosystems. Hairwonder Anti-hairloss Shampoo is guaranteed to be free from microplastics.

Vegan

Hairwonder Anti-hairloss Shampoo is vegan. The fantastic formulation is free from animal ingredients and obviously isn't tested on animals.

Anti-hairloss Lotion

Our Anti-hairloss Lotion has been developed to reduce and prevent hair loss. With top quality ingredients like biotin, essential minerals, red ginseng and panthenol. These targeted ingredients contribute to maintaining and strengthening healthy and resilient hair.

Scientific research

Hairwonder Anti-hairloss Lotion has been tested in vitro and increases hair growth by 25% in just 4 days. It reduces hair loss, strengthens hair and stimulates the scalp.

Application

- Course of treatments: 3 – 4 treatments a week for 11 weeks
- Ongoing maintenance: 2 – 3 treatments a week
- Preventive use: 1 – 2 treatments a week

Daily use can result in a 25% increase in hair growth (in vitro test) in just 4 days.
