

BIFIDONATE FORTE®

BIFIDONATE FORTE FEATURES

- Helps liver function and detoxification
- Helps in the production of B Vitamins in the gastrointestinal (GI) tract
- Acts as a antimicrobial agent by producing acetic and lactic acid, to lower the pH of the intestines and inhibit undesirable bacteria
- Helps to inhibit the colonization of the intestines by invading pathogens with which it competes for nutrients and attachment sites
- May suppress harmful bacteria that are associated with age-related, geriatric diseases

BIFIDONATE FORTE MAY HELP SUPPORT

- *A healthy intestinal flora*
- *Digestion and absorption*
- *Overall daily regime of probiotic intake*
 - *Repopulation of the colon with bacteria essential for good health*
 - *Production of B vitamins*
