

MASTERFUL ANTIOXIDANT TARGETING OXIDATIVE STRESS AND ITS EFFECT ON AGING

SOME OF US WANT TO LIVE FOREVER, BUT WE ARE NOT THERE YET! HOWEVER, BEING ABLE TO SLOW OXIDATIVE STRESS IN OUR BODY HAS A SHOWN A DIRECT CORRELATION TO OUR AGING.

Stemulin[®] is a specialized orthomolecular combination of antioxidants and functional nutraceuticals that protect the cells from oxidative damage caused by free radicals and assist in correcting the damage and thus, slow the aging effects of oxidative stress. Certain antioxidants are also important for protecting the immune system and the body capacity to self-repair.

PROVITA - A STORY OF LOVE AND HEALING -

Our founder, Dr. Lucian Delcea, started Provita out of necessity. His wife was ill. And when drugs failed her, he began his search for an alternative. Before Provita launched in 2005, he sifted through countless hours of research; counseling with some of the top European naturopaths to produce more progressive support for the body's functions. Dr. Delcea came to

understand the body's healing process; how it could naturally overcome disease. All it needed were triggers to properly recognize and absorb nutrients for self repair.

Provita is not just a natural health line - it's an understanding of the body's own mechanisms. Dr. Delcea's now healthy wife is testament to that.
