PROVITA - A STORY OF LOVE AND HEALING -

Our founder, Dr. Lucian Delcea, started Provita out of necessity. His wife was ill. And when drugs failed her, he began his search for an alternative. Before Provita launched in 2005, he sifted through countless hours of research; counselling with some of the top European naturopaths to produce more progressive support for the body’s functions. Dr. Delcea came to understand the body’s healing process; how it could naturally overcome disease. All it needed were triggers to properly recognize and absorb nutrients for self repair. Provita is not just a natural health line - it’s an understanding of the body’s own mechanisms. Dr. Delcea’s now healthy wife is testament to that.
